Dear Prof. Rampurawala,

I am writing this note in regards to the MoU between Rutgers-Camden and Vidyalankar School of Information Technology that went into effect in 2016. Three batches of students from VSIT have come to Rutgers-Camden (RU-C) until now. Out of the three students who came to RU-C in 2016, two students (Omkar Asawale and Ishan Karulkar) are in our accelerated graduate program¹ and Vaibhav Borkar has graduated with a Bachelor's degree in Computer Science and has started working at the Childrens Hospital of Philadelphia (CHOP), which is among the top childrens hospital in the nation. Vaibhav was an intern at CHOP during his undergraduate studies after which he joined them full-time. Similarly, Arth Dharaskar is doing extremely well at RU-C. He constantly challenges himself by taking hard classes and works hard to perform well in them. He is also taking advantage of the Rutgers system by taking some courses at Rutgers-New Brunswick. At Rutgers-Camden we allow such flexibility. Arth also made it to the Dean's list for his strong performance during the fall semester of 2018. We appreciate your efforts taken in the first two years to groom these students and make this transfer as seamless as possible. We are keen to strengthen this collaboration and enhance students' experience.

Yours sincerely,

Rajiv Gandhi
(Professor)
