

Bachelor of Computational Science

South Carolina, Beaufort

With more than 50 undergraduate academic programs of study and 2 new graduate degrees, has a dedicated team of faculty and admissions staff to help you discover your passion. We will put you a step closer to your dreams.

USCB has three campuses in the heart of the South Carolina Lowcountry—the main campus in Bluffton has cutting-edge laboratories, vibrant campus life and Sand Shark athletics. The Historic Beaufort campus is on the water in artistic downtown Beaufort, and the Hilton Head Island campus offers hospitality internship opportunities at world-class beach resorts.

The purpose of the **Bachelor of Science in Computational Science** is to provide students with a comprehensive exposure to various science and engineering fields that interface with Computer Science and provide an intensive immersion into a particular field of interface.

The program will endeavor to produce graduates who will possess the skills that will allow them to participate in the extension of scientific thought and knowledge.

Scholarship

- Vidyalkar students are granted scholarship of approx **\$12,000** per year

"The 2 years that I have spent at the VSIT have been really good. It is great that Vidyalkar is providing a platform where students can gain International Education and exposure. Enough computer labs are provided to students to gain practical knowledge. The various sports festivals added to the experience. "

Karan Shah, 2019 Graduate
