

Bachelor of Computer Science

Aiken
UNIVERSITY OF SOUTH CAROLINA

University of South Carolina Aiken

Building partnerships has been the cornerstone of the **University of South Carolina Aiken** since its inception in 1961.

It was then that the citizens of the Aiken community voiced the need for a local institution of higher education. In a true demonstration of grassroots politics, the community rallied to show their support for a college to be founded in the area.

The **computer science** degree covers the techniques, algorithms and theory necessary for building software, including sub specialties such as video games, bioinformatics and computational biology, computer forensics, geographic information systems, Web applications, enterprise computing, scientific computing and databases.

Our graduates are employed as programmers, software designers, systems analysts, data scientists, UI/UX designers and mobile app developers.

Specializations

- Computer Science
- Cyber security
- Advanced Gaming

Duration

3 Years - 1 Years at Vidyalankar & 2 Years at South Carolina, Aiken

Stay Back

Students can work full-time upto **36 months** on the student VISA (F1) during which they can work full-time

Scholarship

- Vidyalankar students are granted scholarship of approx **\$8,000** per year

"The 2 years that I have spent at the VSIT have been really good. It is great that Vidyalankar is providing a platform where students can gain International Education and exposure. Enough computer labs are provided to students to gain practical knowledge. The various sports festivals added to the experience. "

Isha Pawar, 2020 Student
