

Bachelor of Computer Science

University of Lethbridge

The **University of Lethbridge** is a public comprehensive and research higher education institution located in Lethbridge, Alberta, Canada. The U of L is respected around the globe as a research-intensive, comprehensive university. Here, you'll find yourself at the centre of a student-focused environment that nurtures innovation, critical thinking and creativity. From financial support to one-on-one mentorship and individualised career advice, you'll find support every step of the way. As a student at the U of L, you are viewed as a partner and a colleague. You'll be given opportunities to collaborate and share your unique ideas, ask questions and find answers.

Computer Science is the study of algorithms and data structures, and their applications in designing new and efficient solutions to industrial, technological, environmental, or social problems. Computer Science students will learn to tackle difficult problems using a variety of high-tech tools and approaches.

The program is designed to enable students to gain both theoretical knowledge and practical experience, including access to state-of-the-art hardware and software in computer labs.

About Lethbridge, Alberta

We are one of Canada's sunniest cities (320 days of sunshine year). Bring sunscreen and shades. Coulees. Think of a flowing landscape running along the river valley. Wind. Yes — windy days warm our winters. But the breeze is indicative of our people.
